

**The Research Training Group
“Medicinal Chemistry of Selective GPCR Ligands” (GRK 1910)**

funded by the German Research Foundation (DFG) offers

1 Post-Doc Position (TV-L E13, 100%)

Associated to the Laboratory of Prof. Peter Gmeiner (Chair of Pharmaceutical/Medicinal Chemistry), Friedrich-Alexander University Erlangen-Nürnberg

Research Training Group GRK 1910 located at the Universities of Erlangen-Nürnberg and Regensburg aims to explore the ligand-induced control of aminergic and peptidergic G-protein coupled receptors at different levels of selectivity. The current position refers to **Project P1: Conformational control of GPCRs by functionally selective ligands.**

We are looking for a talented young scientist with a high potential to become an outstanding independent researcher. The position offers the opportunity for career development and to take advantage of the interdisciplinary environment of the Research Training Group for up to two years.

Highly qualified candidates with a strong background in at least one of the following fields are invited to apply: Medicinal Chemistry, Organic Chemistry, Chemical Biology and/or Molecular Pharmacology. Experience in GPCR research is welcome.

For details, please, visit our website at <http://www.GRK1910.de>.

Interested candidates should send their CV, list of publications, a one page summary of research background and goals to:

Dr. Stefan Löber (coordinator of the Research Training Group)
stefan.loeber@fau.de

The Friedrich-Alexander-University Erlangen-Nürnberg is committed to the compatibility of family and career. Women are explicitly encouraged to apply. Severely disabled applicants are given preference in instances where applicants demonstrate an equal level of qualification.

Application deadline: 31st January, 2015
